

MLIFT **HOIST WINCH** **DUCT LIFTER**

Standard/Optional Configurations

- Best in class load capacity
- Dual handle 2 speed winch
- High quality heavy duty design
- Superior features
- Exceptional warranty

MLIFT HOIST WINCH DUCT LIFTER

EASY TO MANOEUVRE, LOAD AND STORE

The unit sets up quickly without any tools and is ready to go to work in seconds. It rolls through standard single doorways in the upright position – no need to remove the load or tilt back the lift. The optional rear transport wheel assembly also allows manoeuvrability on uneven surfaces. Legs fold up and attachments are removable for easy storage and loading, plus a hold-down bar secures the mast assembly during transport.

FIVE LOAD HANDLING ATTACHMENTS

Interchangeable load handling attachments handle a large variety of workloads, so you can design your lift to meet your needs.

Standard Forks
Accommodate a variety of general loads.

Fork Extensions Insert
onto standard forks for an additional 64 cm (25 in) of length.

Load Platform Fits over the forks to handle odd-sized or heavy objects – no tools required for installation.

Boom Option transforms your lift into a mobile, vertical crane or hoist to position tooling fixtures, circuit breakers, engines and more.

Pipe Cradle helps hold odd-shaped items in place for easy lifting.

Model	MDL-28	MDL-39	MDL-40	MDL-47	MDL-54	MDL-62	MDL-72
